

# Living

## In general

Diemen, attractively close to Amsterdam, but with the tranquility of a township.

Diemen offers a wide range of possibilities for living: rental homes nearby custom building lots, newly built homes next to a beautiful student campus. Diemen is one of the most accessible municipalities, certainly where public transport is concerned.

It also has good highway connections to, among others, Schiphol, Utrecht, Amersfoort and other parts of the country. You are also close to nature and the Green Heart of The Netherlands, of which Diemen is the most northernly point. Diemen has lots to offer as far as cultural associations and sports clubs go.

In addition Diemen has an own theatre (De Omval), a library and a swimming pool. There are seven primary schools and a college (InHolland) (higher education) with a number of educational programs. High schools can be found in, for instance, the adjacent cities of Weesp, Amsterdam and Amstelveen.

By bike or on foot you can easily reach nature parks where it is delightful to linger. The location of Diemen is favorable for taking different bicycle trips, for example in the direction of Weesp, Abcoude, Durgerdam, etc. A boat trip to Amstel or Vecht is also possible.
